GREETINGS

to all American Hibiscus Society members & thank you for reading (at least I hope you have read it) the contents of this our first bulletin.

We need your new ideas to make these bulletins interesting. So please send in any information that you think would be of interest to our members. Whether it be new varieties cultivatation or care or perhaps a comical experience of a member.

Which reminds me, I hope no one attending the Board meeting in Vero Beach, Feb. 19 gets confused in directions as did certain members attending our Annual meeting in Vero last June. After driving for hours thru pouring rain, thought surely they must be near Miami unless it had moved nearer Key West, & found they were in Clewiston, Fla. in the sugar cane & ranching section. Will they ever live that down ???

Gladys M. Michaesl,
Executive Secretary
of AHS & Editor of
this Bulletin.
